

Рамка металлодетектора с функцией измерения температуры
AT-AC-1MDG-6/TD

SPECIFICATION

Features	Description
Model NO.	AT-AC-1MDG-6/TD
Standard	GB15210-2003
Detection Accuracy	The size of a coin
Display	LED screen, temperature, number of people and number of alarms
Detection Area	6 area
Sensitivity	Each detection area has 0-99 level sensitivity adjustment
Alarm Mode	Sound and light alarm
Operating Environment	Indoor
Material	Fireproof board + waterproof material
Safety Standard	It conforms to the current international safety standards and adopts weak magnetic field emission technology, which is harmless to pacemaker wearers, pregnant women, video tapes, etc.
Operating temperature	-20℃~55℃
Power	AC220V
Power consumption	≤15w
Weight	48.5Kg
Side panel size	2205*535*130mm
Front panle size	750*240*335mm
